

**Prof. Giridhara R Babu**

MBBS, MPH, Ph.D.

Dr. Giridhara R Babu is Professor and Head – Life Course Epidemiology at Public Health Foundation of India. He has a medical degree (MBBS) from Kasturba Medical College, Manipal and has completed MPH and Ph.D. from UCLA (University of California Los Angeles). He has two decades of experience in public health research, practice and academics. He began his career at the Center for Community Medicine of the All India Institute of Medical Sciences, New Delhi as a Junior Resident. Next, he worked with World Health Organization where he led the efforts in stopping polio transmission in the state of Karnataka. He initiated advocacy for Measles surveillance in Karnataka leading to constitution of the Multi Year Plan (MYP) for Measles elimination in India. He was awarded the prestigious intermediate and now the senior fellowship of Wellcome Trust-DBT India Alliance to start and expand cohort study.

Dr. Giridhara has over 120 papers published in national and international high impact journals. He has served on several national and international committees. Some of them include Lancet Commission Task force on COVID-19, ICMR National Task Force for COVID-19 and the Technical Analysis Committee of the Government of Karnataka. He is the regional representative for LMICs on the DoHaD international society.

He is actively involved in writing articles for general public, providing his expert opinion to media houses and consultation to several states.
